**Data sheet** 

32K TERM. BLOCK TP3 W. LED SCREW TERM.

Connection module TP3 32 channels a. 2x33 terminals f. Potential supply Type: Screw terminal with LED, VPE=1 unit 50 pole IDC connector for cable

target system	SIMATIC S7-1500		
suitability for use	Digital I/O modules		
product type designation	Fully modular connection		
product designation	Connection module		
electrical data			
operating voltage			
<ul><li>at DC / rated value</li></ul>	24 V		
rated value	24 V		
• at DC / maximum	28.8 V		
ampacity / per pin / maximum	1 A		
continuous current / at DC / per signal cable / maximum	1 A		
total current / maximum	2 A		
display version / as status display of the inputs/outputs	LED yellow for "active high"		
display version / for power supply / power LED	Yes; green for 24 V DC O.K.		
product component / PE connection	No		
product component / shield connection	No		
product component / disconnector	No		
product function / infeed function	Yes		
product feature / cross-connectable	No		
connection method			
connection method			
number of terminals	98; 32 x I/O; 33 x L+, 33 x M

marketing text	The TP3 connection module for a 3-wire connection with 32 channels and potential connection with screw terminals with LED for signalling forms the interface between the connecting cables of the peripherals brought in from the field and the SIMATIC S7. This is mounted on the DIN rail and is exactly adapted to the respective task thanks to its functionality with screw terminals. This connection module is part of the fully modular SIMATIC TOP connect connection for the fastest and safest system cabling. In addition to low wiring costs, error sources in cabling can be significantly reduced. Sensors and actuators from the peripherals are combined with the connection modules of SIMATIC TOP connect and connected to the SIMATIC S7-300/1500 via cable and front plug-in module.
